								  ◦ avoiding an obstruction;
								  ◦ obeying a traffic-control signal; or
								  ◦ intending to turn off the carriageway, and in order to do so safely it is necessary to position the vehicle in another lane before starting the turn.
								• RAVs must not park in the stopping bay. RAVs must only stop long enough to conduct a brake check, select low gear, select the appropriate auxiliary brake setting and commence descent.
								• Prior to descending Lesmurdie Hill, RAVs must pull into the bay at the top of the hill (SLK 6.21), stop & conduct a brake system check. When descending Lesmurdie Hill, drivers must ensure they engage low gear, use their auxiliary brakes and must not exceed a maximum speed of 40 km/h.
